- b. Use this guide to figure out which parent’s information to include (depending on your family situation).

- i. Question 1: Are your parents married to each other?

If yes, then report information for both parents on the FAFSA.

If no, then answer question 2.

If yes, then report information for both parents on the FAFSA, even if they were never married, are divorced, or are separated.

If no, then answer question 3.

7) We have filed our FAFSA, but it was selected for a review process called verification. Do I need to do this? Why do I need to do this?

- a. FAFSAs are chosen to be verified for a number of reasons. A student's FAFSA may be flagged for verification due to an error made while filling out the form, or your FAFSA may just be one of the lucky ones randomly chosen to complete the process. Regardless of the reason, approximately one in three FAFSAs are chosen and federal aid cannot be awarded to those students by any school until the process is complete.
- b. Follow your college's guidelines to complete this federally mandated process as quickly as you can otherwise you may not receive a financial aid award package.

You can easily find a Net Price Calculator on every college's financial aid webpages or located in the footer of the college's main website.
